> PROFESSIONAL EXPERIENCE

SEERSCO GROUP LTD.

UI/UX Designer & Front-End Developer | Lahore, Pakistan | Nov 2019 – Cont.

I help the team plan out the user experience journey and craft user interfaces to suit the product's needs. Furthermore, I write the markup and JS required for new pages or products.

NADIUS SOLUTIONS

Project Manager & Developer | Lahore, Pakistan | May 2019 – Sept 2019

I identified the projects' scopes and planned their development, chalked out the production timelines, set up the milestones and either recruited freelancers to work on them or acted as the sole developer and designer.

VETERANLOGIX

UI/UX Designer & Developer | Lahore, Pakistan | May 2018 – July 2019

I oversaw the overall development, helped the team understand how to use Git to keep the work flow clean, acted as a supervisor and lead on issues aside from design and front-end development and streamline tasks to improve productivity. Wrote clean and re-usable markup with a component-based approach and handled all design-related jobs.

HOBIDDIES (PVT) LTD.

Interim C.T.O. & Front-End Developer | Lahore, Pakistan | March 2017 – 2018

Improved the team's productivity by introducing a practical Git branching model and Agile. Communicated directly with the clientele to understand the project specs and design accordingly. Introduced Trello and Scrumming for better work ethics. Created the branding for the startup for its app and prototyped in Ionic 3. Designed logos, wallpapers, icons, banners, standees and whatnot.

INNOVERSETECH

Graphics Designer | Lahore, Pakistan | April 2016 – March 2017

Designed graphics for the clientele that varied between digital and print media. Created all graphical resources for the assigned projects. Worked alongside the developers to create responsive layouts and themes. Wrote markup and functionality for websites using Javascript and jQuery.
